

Feeling the Pressure? We Understand.

Utilities are faced with an ever-growing set of challenges and demands, and it can be difficult to keep up. Aging infrastructure, operational constraints and customer satisfaction are driving utilities to seek for solutions to help become more efficient.

- Aging Infrastructure
- Water & Revenue Loss
- Expertise Attrition
- Budgetary Constraints
- Regulatory Compliance
- Water Quality
- Customer Expectations
- Reputation Management
- Energy Costs
- Sewer Overflows
- Inflow & Infiltration (I&I)
- Conservation & Sustainability

Have you been looking for a solution that will optimize your operations, enhance customer service and drive smart decisions? Let Core & Main be your gateway to becoming a smart utility. Introducing CORE+.

Core & Main Opens the Gateway to Smart Utilities... and Smart Cities.

CORE+ partners with premiere hardware, software, and service providers to deliver a comprehensive suite of smart utility solutions. Tailored to your unique goals, Core & Main offers flexible, custom-fit options—whether you need individual components or fully integrated systems.

Core & Main is the leading waterworks distributor in the U.S., with more than 70 years of experience helping communities nationwide build, maintain, and evolve their critical water infrastructure. We bring together local expertise, trusted partnerships, and smart technology to support utilities in becoming more efficient, resilient, and future-ready.

#1 Market Position

SMART UTILITY, SMART DECISIONS

Benefits of Being a CORE+ Smart Utility:

Let's Make This Easy

OPERATIONAL BENEFITS

- + Shift From Reactive to Proactive
- + Simplify System Management
- + Predict and Control Costs
- + Streamline Implementation and Labor Planning

CUSTOMER BENEFITS

- + Proactively Engage Customers
- + Prevent Water Loss
- + Enable Real-Time Alerts
- + Streamline Technology Integration

STRATEGIC BENEFITS

- + Improve Service and Payment Efficiency
- + Reduce Non-Revenue Water
- + Increase Revenue with New Meters
- + Extend Asset Lifecycles

What is in the CORE+ portfolio?

Utilities that use CORE+ choose from our comprehensive, integrated suite of managed software and services.. **CUSTOMIZED FOR YOUR NEEDS.**

1. SMART METERING

- + Residential & Commercial
- + Irrigation
- + Fireline
- + Hydrant
- + Multi-Utility: Electric, Gas & Water
- + AMR/AMI Systems
- + Handheld meter reading
- + Network-as-a-Service/(NaaS)

2.PROJECTS & SERVICES

- + Assessment & Design
- + Project Management
- + System Installation
- + Software Integration
- + Meter Reading
- + Meter Testing & Validation
- + System Maintenance
- + Field Operations
- + Lead Line Locating (LCRR)
- + Meter Audits w/GPS

3.SOFTWARE SOLUTIONS

- + Customer Information System (CIS)
- + Utility Billing & Payment Options
- + Customer Engagement Portal
- + Meter Data Management (MDM)
- + Smart Utility / Advanced Analytics
- + Asset Management
- + GIS & Mapping
- + Mobile Field Operations
- + Software-as-a-Service/SaaS

4. ADVANCED MONITORING

- + Predictive Data Analytics
- + SSO/CSO Monitoring
- + Inflow & Infiltration
- + Environmental Compliance
- + IOT/Smart Sensor Integration
- + Level Sensors & Pressure
- + Water Quality
- + Flow Meters
- + Remote RTUs (cellular, satellite)
- + Acoustic leak detection

One Partner – Simple Execution

CORE+ helps you harness the power of data to drive confident, informed decisions for your city and your customers. We start by listening—because every community is different, and every challenge deserves a tailored approach. Our team delivers smart, scalable solutions built around your priorities. **Your team thrives. Your resources go further. Your customers stay connected.** Whether you need end-to-end support or targeted expertise, CORE+ offers a flexible suite of services—including project management, operational support, utility software, and fully inclusive AMI system management.

How We Do It

End-to-End Support for Every Phase of Your System's Lifecycle
